## Tammy & Steve

Upon recently selling their business, Tammy and Steve were looking for ways they could create a new stream of income. Their immediate thought was to rent the upstairs of their home to a long-term tenant. After further thought and consideration they began exploring the opportunities of short-term rentals.

// We loved the idea of short-term rentals with the opportunity for higher income and flexibility of our space but didn't want to create another job for ourselves and limit our ability to travel in our retirement. //
